Skills

API Testing: Hands-on experience in API Test Automation using FireFlink and API Testing using Postman. Good knowledge of HTTP Methods, Client-Server Architecture, SOAP and REST Web Services. Experienced in validating Status Codes (200, 201, 400, 403, 404, 415, 422, 500), handling Parameters, JSON, XML, Serialization, Deserialization, Variables, CRUD Operations, Request Chaining, Basic Auth, Bearer Token, Newman, API Test Case Design, Snippets, Batch Execution, and Complex JSON Path Validation.

Core Java: Strong knowledge of OOP Concepts including Method Overloading, Method Overriding, Inheritance, Polymorphism, Abstraction, and Encapsulation. Good understanding of Object Class, String Class, Constructors, Interfaces, Arrays, Collections (List, Set), Generics, Upcasting, Downcasting, Exception Handling, File Handling, Threads, and Java 19 programming using Eclipse IDE.

Selenium Automation Testing: Strong knowledge of Selenium Architecture, Browser Controlling Methods, HTML DOM Structure, Locator Strategies, POM Design Pattern, Action Class, Frames, Tables, Forms, Divisions, Scrolling Techniques, Implicit and Explicit Waits, Batch Execution, Parallel Execution, Group Execution, TestNG Annotations, Maven Configuration, Selenium Client Bindings, Automation Frameworks, Screenshot Capture, and converting Manual Test Cases into Automation Scripts.

SQL: Extensive knowledge in writing SQL Queries and performing CRUD Operations on RDBMS. Experience working with SQL Server, MS SQL, Oracle SQL and Oracle SQL*Plus. Good knowledge of Joins, Sub-Queries, Grouping, Functions, Views, Pseudo Columns, DDL, DML, TCL, DCL, DQL Statements, Normalization, ER Diagrams, and writing 400+ SQL Queries.

Manual Testing: Strong knowledge of SDLC and STLC. Extensive knowledge of Smoke Testing, Functional Testing, Integration Testing, System Testing, Adhoc Testing, Compatibility Testing, Internationalization (I18N), Localization (L10N), Regression Testing, Performance Testing, and Test Plan Preparation.

Projects

Secure Load Balancing for Big Data Analytics in Green Cloud Computing Environments

Technologies: Java, SQL, Cloud Computing, Big Data Analytics, Oracle SQL

- Identified test scenarios and prepared test cases.
- Improved system performance and resource utilization.
- Enhanced data security during analytics processing.
- Increased overall system reliability and efficiency.

Object Detection Using YOLOv5

Technologies: Python, YOLOv5, PyTorch, OpenCV, NumPy, Pandas, Google Colab

- Collected and preprocessed image datasets for model training.
- Trained and fine-tuned the YOLOv5 model using PyTorch.
- Achieved accurate real-time object detection and classification.
- Improved detection efficiency through model optimization.

Experience

QSpiders, BTM Layout, Bangalore Software Testing Trainee (SDET)

- Analyzed software requirements and identified test scenarios.
- Designed and executed test cases for web applications.
- Improved test coverage by identifying critical defects before release.
- Reduced defect leakage through thorough regression testing.

Achievements

- Completed **SDET Training** at **QSpiders, Bangalore**.

Education

B.Tech (Computer Science & Engineering - AI)

2022 – 2026

MJR College of Engineering & Technology, Piler, Andhra Pradesh

CGPA: **8.0/10**

Intermediate (12th)

2019 – 2021

Seetharamaiah Junior Girls College, Dharmavaram, Andhra Pradesh

Percentage: **90%**

Secondary School Certificate (SSC)

2014 – 2019

ZPGHS Girls High School, Dharmavaram, Andhra Pradesh

Percentage: **92%**
